

Tool: Cable Kit M12-M8 Adapter

General

This cable kit is for use with our item no. 530506, IS8B Elec Circ Tester, so that it is possible to test the Ci-IS8A Solenoid.

The Ci-IS8A Solenoid is fitted with an M8 connector, where the newer Ci-IS8B Solenoid is fitted with an M12 connector.

This cable kit must be connected in series with the M12 connector on the IS8B Elec Circ Tester, item no. 530506, then it can be connected to the Ci-IS8A Solenoid.

See also the datasheet for item no. 530506, IS8B Elec Circ Tester.
