

Duct halogen free

Item numbers covered by this datasheet

1943301 Cable Duct 20x20 Halogen free, white
 1943501 Cable Duct 30x45 Halogen free, white
 1943601 Cable Duct 40x60 Halogen free, white
 1943701 Cable Duct 60x90 Halogen free, white

1943302 Cable Duct Endplate 20x20 Halogen free, white
 1943504 Cable Duct Endplate 30x45 Halogen free, white
 1943604 Cable Duct Endplate 40x60 Halogen free, white
 1943704 Cable Duct Endplate 60x90 Halogen free, white

1943101 Cable Duct Mini Halogen free, white

General

All the products are halogen free and eliminate the risk of hazardous combustion gases and smoke from the conduit. The normal conduit contains PVC/Halogen (chlorous plastics) which is very harmful to the human body under a fire.

Duct halogen-free, for installation of many cables. Suitable for housing and industrial distribution in hospitals, schools, data-centres, etc. Suitable for environments with increased need of people and equipment protection. Endplates for ending the channel.

Specifications

Cable Duct:

Size: height x width (mm) 20x20, 30x45, 40x60, 60x90
 Length (m) 2
 Colour Pearl white
 Ambient temperature -30 ... + 90 °C

End plate:

Size: height x width (mm) 20x20, 30x45, 40x60, 60x90
 Colour Pearl white
 Ambient temperature -30 ... + 90 °C
