

Rack Beams

Item numbers covered by his datasheet

105102	Rack Crossb 50l 4cyl Pine Blk
105103	Rack Cylbase 50l 4cyl Pine Blk
105202	Rack Crossb 80l 4cyl Pine Blk
105203	Rack Cylbase 80l 4cyl Pine Blk
105212	Rack Crossb 80l 5cyl Pine Blk
105213	Rack Cylbase 80l 5cyl Pine Blk
105222	Rack Crossb 80l 6cyl Pine Blk
105223	Rack Cylbase 80l 6cyl Pine Blk

General

Wooden beams for fixing high pressure cylinders.

Wooden beams are typically used in marine or offshore applications where extra support of cylinders is needed.

A steel U-profile must be placed on the outer beams to distribute the force for the bolt in order not to damage the wood.

Specifications

Temperature: -50 - +200 °C

Material: Black stain, **105103_Rack**
Cylbase 50l 4cyl
Pine Blk

Dimensions:

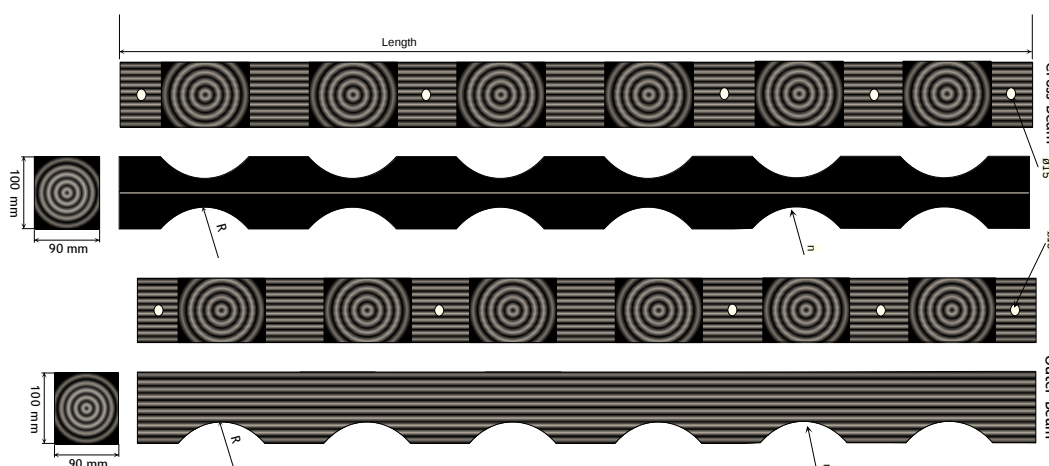

R

Length:

4 cyl.:	1m
5 cyl.:	1m
6 cyl.:	1m

Weight:

4 cyl.	approx. 3 kg
5 cyl.	approx. 4 kg
6 cyl.	approx. 5 kg

Document: Rack Beams.docx

Category:

Control inert
