

Electrical conduit system components

Item numbers covered by this datasheet

102070	Clamp no 19 2 patches galv
102071	Conduit cover 20 for Ø20mm
102072	Elbow 3/4" 20mm galv
102073	Fitting long 3/4" 20mm galv
102074	Fitting short 3/4" 20mm galv
102075	Steel conduit 3/4" 20mm galv

General

Components are used for wiring.

Specifications

Part number	Material	
102070	Medium-hard steel strip Hot-galvanized coating	Suitable for fixing below parts
102071	Plastic	Conduit cover, fits below parts Ø22 mm (cap) x 14 mm
102072	Steel Hot-galvanized coating	Elbow pipe sleeve Ø 20 mm
102073	Steel Hot-galvanized coating	Pipe sleeve long Ø20 mm
102074	Steel Hot-galvanized coating	Pipe sleeve short Ø20 mm
102075	Steel Hot-galvanized coating	Pipe Ø20 mm / ø18 mm x 4 m

Standards & approvals

Pipes and sleeves are produced according to:

EN 61386-1 and EN 61386-21

Document:

INTEC_10207x Electrical conduit system components
